INDUSTRY ADVICE

INTRODUCTION OF TEMPORARY Q - SURCHARGE FOR TRAVEL BETWEEN POM-RAB

Dear Travel Partners,

Due to essential runway works being conducted by the National Airports corporation (NAC) at Rabaul Airport, Air Niugini operations into and out of Rabaul has been restricted to Dash operations for a period of up to four months, subject to weather conditions. In addition, there are payload restrictions which limits capacity to only 15-20 passengers per flight.

To accommodate these circumstances and ensure continued service, Air Niugini will be introducing a temporary surcharge of K600 per flight to/from Rabaul. This surcharge will be applicable from **March 7th to July 6th**.

- Tickets issued between this period will have a Q surcharge of K600 per sector.
- Tickets reissued/exchanged for travel within this period will be subject to an additional collection of the fare difference.

Should you have any questions, please direct them to the Pricing Team.

Kind regards,

Pricing Office
